How to make Warhol-inspired celebrity portraits!
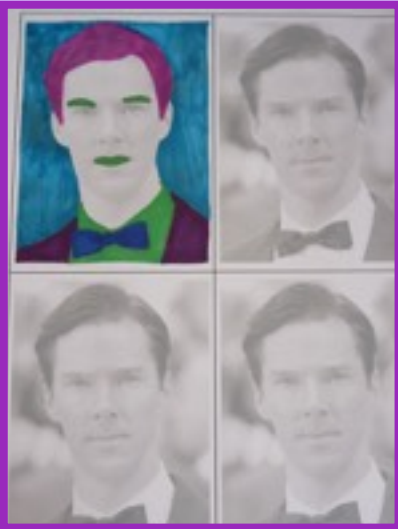

1. Choose a photo of a famous person and copy it four times. Make the photos black and white, and make them pale so you can colour over them.

2. Choose a few colours for each picture. Colour in different sections with felt-tip pens but don't colour the face.

3. Keep going until you have coloured one whole section.

4. Repeat this until you have coloured each section. Use a different set of colours for each section.

5. Carefully cut out each picture.

6. Stick the portraits onto a sheet of black card to complete your Warhol-inspired celebrity portrait!
